GETAWAY

By Ulrik Jantzen, Kasper Witte Larsen,
Emil Jakobsen, Simon Caspersen & Kasper Kristoffersen

A PHOTOGRAPHIC VAYAGE TO A PARALLEL UNIVERSE A LITTLE CLOSER TO THE SUN

Getaway is a photobook that plays out in a parallel universe a little closer to the sun. The Canary Islands - almost exclusively a holiday island for more than 3 million western tourists a year - is the backdrop of this performance. Five Danish photographers have been on a photographic expedition to this lost and blazing world and the book is a collection of images they brought back with them.

In this spectacle you have paella, paradise and sausages of all sizes. An island that loves you quickly and unconditionally – and the love are mutual and generous. You get peace and escape on the island of speedos, sunshine and sex on the beach. You will be seduced, tempted and betrayed.

Getaway is about a place where we enjoy, dream, escape, recover and confront the absence of everyday life. That fake reality we call vacation.
